SP250 – SP251: STEAM FLOOR MOP (to be used with MOP MV1410 or MV450V)

- The SP250 or SP251 steam brush is very efficient for cleaning and disinfecting floors, walls and ceilings
- Its patented technology secures optimum disinfection of the treated surfaces.
- The SP250 or SP251 ergonomics ensures easy use and improves productivity.
- Associated with long or short usage Mops, the steam brush SP250 or SP251 leaves no deposit on the treated surfaces. The treated surfaces are dry immediately after steam treatment.
- Its regular use prevents the creation of bactericidal bio-films on the surfaces.

TECHNICAL SPECIFICATIONS :

	<u>SP250</u>	<u>SP251</u>
• Length of handle	120 cm	60 cm
• Width of MOP base	40 cm	40 cm
• Weight	1.5 kg	1,3 kg

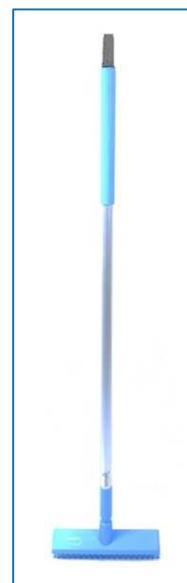

SP260 : STEAM FLOOR BRUSH

- The steam floor brush SP260 is dedicated to the cleaning and disinfecting of hard floors (especially non –skid or slick floors)
- It ensures disinfecting of treated surfaces
- The SP260 ergonomics ensures easy use and improves productivity .
- The steam floor brush SP260 leaves no deposit on the treated surfaces. The treated surfaces are dry immediately after steam treatment.
- Its regular use prevents the creation of bactericidal bio-films on the surfaces.

TECHNICAL SPECIFICATIONS :

• Length of handle	120 cm
• Brush length	27 cm
• Brush width	7 cm
• Weight	1.2 kg

SP310 - 315 : EXTENSION TUBES

- These 2 extension tubes enable to reach in an ergonomic manner the difficult access surfaces with the accessory connected to the extension tube.

TECHNICAL SPECIFICATIONS :

	<u>SP310</u>	<u>SP315</u>
• Length of extension tube	50 cm	110 cm

Accessories

SP200 : BENT STEAM NOZZLE : (to be used with brushes SP30-SP31-SP32)

- **Applications** : Cleaning and disinfecting of narrow and difficult access areas .
- Supplied with the 3 cm brush SP30 – 5 cm brush and stainless steel brush adaptable

SP204 : NOZZLE WITH DISINFECTION CONE : (to be used with disinfection cone SP33)

- **Applications** : Cleaning and disinfecting of narrow and difficult access areas .
- Supplied with the 6 cm cone SP33

SP207 : SIPHON DISINFECTION ACCESSORY :

- **Applications** : Disinfecting of siphons.

SP210 : CONTACT NOZZLE : (to be used with microfiber cloth MV225)

- **Applications** : Cleaning and disinfecting of complex and difficult access areas and especially tubular structures
- The SP210 ergonomic ensures easy use and improves productivity.

SP220 : HIGH TEMPERATURE BRUSH :

- **Applications** : Cleaning and disinfecting of high surfaces.
- The SP220 brush provides steam at high temperature and thus ensures very efficient bio cleaning of treated surfaces

SP230 : STEAM BRUSH and WIPER 20 CM :

- **Applications** : Cleaning and disinfecting of high surfaces.
- The SP230 steam brush ensures very efficient bio cleaning of treated surfaces especially in the food environment.

SP240 : MICROFIBER MOUNT 20 CM : (to be used with microfiber cloth MV345)

- **Applications** : Cleaning and disinfecting of small high surfaces.
- The SP240 with its microfiber cloth MV345 ensures a very efficient bio cleaning of small high surfaces .

SP270 : MOP MOUNT 30 CM : (to be used with Mop MV1404)

- **Applications** : Cleaning and disinfecting of high surfaces.
- The SP270 ensures a very efficient bio cleaning of plane surfaces .
- Equipped with a short or long usage MOP , it eliminates residues and dirt from treated surfaces.

SP285 : STEAM FLEXP 38CM : (to be used with microfiber cloth MV247)

- **Applications** : Cleaning and disinfecting of high plane and complex surfaces,
- The steam Flexo SP285 with its microfiber cloth ensures a very efficient bio cleaning of plane and complex surfaces such as operating theatre lights...
- Its ergonomic ensures easy use and improves productivity.

SP300 : STEAM LANCE 50CM (To be used with brushes SP30-SP31-SP32)

- **Applications** : Cleaning and disinfecting of narrow and difficult access areas .
- With the brush SP30-SP31-SP32, it eliminates residues and dirt from treated surfaces.

SP300 : DISINFECTION STEAM LANCE 50CM (To be used with disinfection cone SP33)

- **Applications** : Cleaning and disinfecting of narrow and difficult access areas .
- Supplied with disinfection cone SP33
